

**SINGLE PHASE RENEWABLE ENERGY RATE**

**(Rate 17, Class 1)**

**AVAILABILITY:**

This structure is available to any member of Parke County REMC located within the territory served by Parke County REMC requesting single phase service for the purchase of energy from renewable resources and for the support of qualified environmental organizations. Members requesting service under this rate must remain on the rate for a minimum of twelve months. Parke County REMC reserves the right to limit the total number of participants under this rate when its renewable sources have been sold or reserved.

**RENEWABLE RESOURCES:**

Energy sold to this rate is generated using renewable resources. These resources are expected to be continuously available except for reasonable periods allowing for normal maintenance of generation equipment. If the cooperative becomes aware that the renewable sources available to it will be, for any reason, insufficient to furnish at least 50% of the total consumer purchases hereunder for more than three months, the cooperative shall suspend application of this rate. When the renewable sources again become available, the cooperative will resume application.

**CONTRIBUTIONS TO QUALIFIED ENVIRONMENTAL PROGRAMS:**

The cooperative will donate the net revenues generated by application of this rate to qualified organizations. These organizations must engage in:  
research and development of renewable resources,

- a. environmental education, or
- b. other activities or programs for which the purpose is consistent with protecting the environment.

These organizations may be local or national but must be not-for-profit. Preference shall be given to qualified organizations who are either located within the cooperative's service territory or whose activities directly benefit the cooperative's locale. The cooperative shall assign responsibility for approving qualified organizations and distributing the net proceeds of this rider to an advisory board that includes at least one consumer of the cooperative.

The cooperative may retain up to twenty-five percent of the revenues generated by
